## LOCAL NOTICE TO MARINERS

**District: 7**

**Week: 24/12**

Issued by:

Commander, Seventh Coast Guard District  
Brickell Plaza Federal Building  
909 SE 1st Avenue, Room 406  
Miami, Florida 33131-3028  
Telephone (305) 415-6750  
Fax (305) 415-6757

Business hours 7:30 a.m. - 4:00 p.m., Monday-Friday  
Command Center (305) 415-6800 (after business hours, emergencies, nights/weekends and holidays)

### BROADCAST NOTICE TO MARINERS

Navigation information having been of immediate concern to the Mariner, and promulgated by the following broadcasts, has been incorporated in this notice when still effective:

- CCGD7 (D7) BNM 240-12 to 248-12
- SECTOR CHARLESTON (CHA) BNM 152-12 to 160-12
- SECTOR JACKSONVILLE (JAX) BNM 247-12 to 258-12
- SECTOR MIAMI (MIA) BNM 161-12 to 167-12
- SECTOR KEY WEST (KWT) BNM 132-12 to 138-12
- SECTOR ST. PETERSBURG (STP) BNM 615-12 to 633-12
- SECTOR SAN JUAN (SJN) BNM 093-12 to 095-12

Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity, mariners should proceed with caution.

REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

Questions, comments or additional information regarding the LNM : Lee.Dragon@uscg.mil or call (305) 415-6752.

The Local Notice to Mariners is available online at <http://navcen.uscg.gov/?pageName=lnmDistrict&region=7>  
the 2011 Light List Books are available for electronic viewing and download via the Navigation Center website at the following link:  
<http://www.navcen.uscg.gov/?pageName=lightLists>

The U.S. Coast Guard Navigation Center (NAVCEN) is the official government source of information for civil users of the Global Positioning System (GPS). The Navigation information Service (NIS) is available 24 hours a day, 7 days a week, for all Radio Navigation and maritime related needs via phone, fax or e-mail. The NIS provides users the ability to access real time or archived GPS, NDGPS, DGPS and LNM information at <http://www.navcen.uscg.gov> as well as subscribe to an automated list service which enables users to receive GPS status messages and Notice to NAVSTAR Users (NANU) messages via direct Internet e-mail.

The NAVCEN also disseminates GPS, DGPS safety advisory broadcasts messages through USCG broadcast stations utilizing VHF-FM voice, HS-SSB voice, and NAVTEX broadcasts. The broadcasts provide the GPS and DGPS user in the marine environment with the current status of the navigation systems, as well as any planned/unplanned system outages that could affect GPS and DGPS navigational accuracy.

To comment on any of these services or ask questions about the service offered, contact NAVCEN at:

Commanding Officer, U.S. Coast Guard NAVCEN (NIS) MS7310

7323 Telegraph Road

Alexandria, VA 20598-7310

Phone: (703) 313-5900 FAX: (703) 313-5920

## ABBREVIATIONS

---

### A through H

ADRIFT - Buoy Adrift  
AICW - Atlantic Intracoastal Waterway  
AI - Alternating  
B - Buoy  
BKW - Breakwater  
bl - Blast  
BNM - Broadcast Notice to Mariner  
bu - Blue  
C - Canadian  
CHAN - Channel  
CGD - Coast Guard District  
C/O - Cut Off  
CONT - Contour  
CRK - Creek  
CONST - Construction  
DBN/Dbn - Daybeacon  
DBD/DAYBD - Dayboard  
DEFAC - Defaced  
DEST - Destroyed  
DISCON - Discontinued  
DMGD/DAMGD - Damaged  
ec - eclipse  
EST - Established Aid  
ev - every  
EVAL - Evaluation  
EXT - Extinguished  
F - Fixed  
fl - flash  
Fl - Flashing  
G - Green  
GIWW - Gulf Intracoastal Waterway  
HAZ - Hazard to Navigation  
HBR - Harbor  
HOR - Horizontal Clearance  
HT - Height

### I through O

I - Interrupted  
ICW - Intracoastal Waterway  
IMCH - Improper Characteristic  
INL - Inlet  
INOP - Not Operating  
INT - Intensity  
ISL - Islet  
Iso - Isophase  
kHz - Kilohertz  
LAT - Latitude  
LB - Lighted Buoy  
LBB - Lighted Bell Buoy  
LHB - Lighted Horn Buoy  
LGB - Lighted Gong Buoy  
LONG - Longitude  
LNM - Local Notice to Mariners  
LT - Light  
LT CONT - Light Continuous  
LTR - Letter  
LWB - Lighted Whistle Buoy  
LWP - Left Watching Properly  
MHz - Megahertz  
MISS/MSNG - Missing  
Mo - Morse Code  
MSLD - Misleading  
N/C - Not Charted  
NGA - National Geospatial-Intelligence Agency  
NO/NUM - Number  
NOS - National Ocean Service  
NW - Notice Writer  
OBSCU - Obscured  
OBST - Obstruction  
OBSTR - Obstruction  
Oc - Occulting  
ODAS - Anchored Oceanographic Data Buoy

### P through Z

PRIV - Private Aid  
Q - Quick  
R - Red  
RACON - Radar Transponder Beacon  
Ra ref - Radar reflector  
RBN - Radio Beacon  
REBUILT - Aid Rebuilt  
RECOVERED - Aid Recovered  
RED - Red Buoy  
REFL - Reflective  
RRL - Range Rear Light  
RELIGHTED - Aid Relit  
RELOC - Relocated  
RESET ON STATION - Aid Reset on Station  
RFL - Range Front Light  
RIV - River  
s - seconds  
SEC - Section  
SHL - Shoaling  
si - silent  
SIG - Signal  
SND - Sound  
SPM - Single Point Mooring Buoy  
SS - Sound Signal  
STA - Station  
STRUCT - Structure  
St M - Statute Mile  
TEMP - Temporary Aid Change  
TMK - Topmark  
TRLB - Temporarily Replaced by Lighted Buoy  
TRLT - Temporarily Replaced by Light  
TRUB - Temporarily Replaced by Unlighted Buoy  
USACE - Army Corps of Engineers  
W - White  
Y - Yellow

Additional Abbreviations Specific to this LNM Edition: None

## SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

---

### HURRICANE SEASON

The hurricane season extends from June 1st through November 30th. Hurricanes can cause excessive damage to vessels and loss of life. To minimize these dangers, the following precautions should be taken by all mariners before getting underway during the hurricane season:

- (a) Instruction of crew and passengers in location of emergency equipment and emergency procedures;
- (b) Pre-sailing check of vessel, machinery, and equipment for seaworthiness;
- (c) Installation of strong ground tackle;
- (d) Review of storm center evasion procedures;
- (e) Knowledge of nearest hurricane shelter or port; and
- (f) Constant radio watches on channel 16 VHF-FM and frequent monitoring of weather broadcasts.

### HURRICANE INFORMATION

The civilian hurricane warning service for the North Atlantic is provided by the National Hurricane Center, Miami, Florida. The center collates ship, aircraft, radar, and satellite data to produce and issue tropical cyclone warnings and forecasts for the North Atlantic Ocean, including the Caribbean Sea and the Gulf of Mexico. A Tropical Cyclone Advisory message is issued every six hours, with intermediate bulletins provided as needed. For tropical storms and hurricanes threatening to cross the coast of the U.S., coastal warnings are issued to the public so that precautionary actions, including evacuation, can be initiated to minimize damage and loss of life. Two levels of warnings are employed:

(a) HURRICANE WATCH - a preliminary alert that a hurricane MAY threaten a specified portion of the coast. It is issued 36 hours before landfall may occur; and  
(b) HURRICANE WARNING - which indicate that hurricane conditions are EXPECTED along a specified portion of the coast. It is issued 24 hours before landfall. To provide additional information for maritime interests, a Marine Advisory is also issued which provides storm position forecasts for up to 72 hours in advance of a storm, and probabilities of hurricane strikes for coastal locations and offshore coordinates.

Mariners are reminded that aids to navigation, particularly lighted and unlighted buoys, may be moved from charted position, damaged, destroyed, extinguished or otherwise deemed discrepant as a result of hurricane and storms. Mariners should not rely solely upon the position or operation of an aid to navigation, but also employ such other methods of determining position as may be available. Port Hurricane Conditions are set by the COTP and will change as the threat of severe weather increases, or as storm(s) approach a specific COTP Area of Responsibility. For COTP specific Port Hurricane Conditions, you should review information provided under Port Directory tab of <http://homeport.uscg.mil>

CONDITION 4 - Hurricane Seasonal Alert. 01 June-30 November; port status: open.

CONDITION WHISKEY - Sustained Gale Force winds associated with Tropical Cyclone activity are predicted within 72 hours; port status: open.

CONDITION X-RAY - Sustained Gale Force winds associated with Tropical Cyclone activity are predicted within 48 hours; port status: open.

CONDITION YANKEE - Sustained Gale Force winds associated with Tropical Cyclone activity are predicted within 24 hours; port status: restricted; vessel/facility control measures in effect.

CONDITION ZULU - Sustained Gale Force winds associated with Tropical Cyclone activity are predicted within 12 hours; port status: closed to all vessel traffic and waterside activities except for activities approved by the COTP.

Drawbridges along the coast may deviate from normal operating procedures. Drawbridges are authorized to remain closed upon approach of Gale Force winds of 34 knots or greater. Extended closure periods may be authorized up to 8 hours prior to arrival of Gale Force winds to facilitate evacuation of land traffic. Due to the uncertainty of hurricane movements and bridge closures, mariners are urged to seek passage through drawbridges well in advance of the arrival of Gale Force winds.

LNM: 21/12

#### **RADIOTELEPHONE DISTRESS WATCHKEEPING**

Mariners are advised that calls to the Coast Guard on the international radiotelephone distress frequency 2182 kHz may not be reliably received by the Coast Guard. Areas where maritime broadcasts on 2670 kHz are being received satisfactorily by mariners should not be affected. Similarly, mariners using high frequency (HF) radiotelephones equipped with digital selective calling (DSC) capable of operating on the 4, 6, 8, 12 and 16 MHz distress frequencies should not be affected. Coast Guard watch keeping services on these HF radiotelephone and DSC distress frequencies are posted at <http://www.navcen.uscg.gov/?pageName=cgcommsCall>. Mariners who receive a distress alert or call that has not been acknowledged by the Coast Guard are asked to assist if possible and advise the nearest Coast Guard unit using whatever means is practicable.

LNM: 12/12

#### **SEACOAST-FLORIDA-CAPE CANAVERAL: Eastern Range OP # A6563, ATLAS-V NROL-38**

Eastern range will be conducting hazardous operations surface to unlimited within the following areas.

A. FROM 2836N 8036W  
TO 2837N 8033W  
TO 2835N 8026W  
TO 2831N 8008W  
TO 2829N 8008W  
TO 2834N 8035W  
TO BEGINNING

B. FROM 2433N 6015W  
TO 2232N 5434W  
TO 2059N 5503W  
TO 2322N 6055W  
TO BEGINNING

Hazard periods for primary launch day and backup launch day:

Primary launch day: 18 / 1220Z Thru 18 / 1413Z Jun 12. T-0 IS 1220Z.

1st Backup launch day: 19 / 1220Z Thru 19 / 1413Z Jun 12. T-0 IS 1220Z.

2nd Backup launch day: 20 / 1220Z Thru 20 / 1413Z Jun 12. T-0 IS 1220Z.

LNM: 24/12

**SEACOAST-FLORIDA-PALM SHORES-WEST PALM BEACH-LAKE WORTH INLET: Semi-Submersible Testing**

Lockheed Martin – Riviera Beach in conjunction with the United States Navy will be conducting offshore testing of an unmanned, remotely piloted, semi-submersible vehicle 1 to 5 miles offshore from the Lake Worth Inlet to Boynton Beach Inlet. Operations will take place beginning January 1, 2012 and ending December 31, 2012. The Lockheed Martin RHIB and Sea Tow RHIB vessels will support the semi-submersible and will be in constant radio contact with the operations crew and equipped with a remote kill switch. They will also be monitoring VHF channel 16. Mariners are advised to stay clear of the RHIB boats, the semi-submersible vehicle and posted dive flags by at least 200 yards. For further information please contact Sea Ops Division, Mr. Donny Jones 561-494-2245.

LNM: 52/11

**PUERTO RICO-ISLE DE VIEQUES-HAZARD TO NAVIGATION: Unexploded Ordnance**

Unexploded Ordnance has been reported 600 YD south of Bahia De La Chiva in waters surrounding Isla Chiva. Vessels and persons are advised to keep a standoff distance of at least 300 YD radius from position 18-06-30N 065-23W. Vessels and persons are cautioned not to transit, anchor, or swim in waters surrounding Isla Chiva. [Ref: SSJ BNM 064-11]

LNM: 12/11

**SECTION II - DISCREPANCIES**

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

### SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

### SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR					CGD01	
(Temp) ADD	NATIONAL DOCK CHANNEL BUOY 3				at 40-41-09.001N	074-02-48.001W
	Green can					
Corrective Action	Object of Corrective Action				Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true.

Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

### SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

---

#### SUMMARY OF ADVANCED APPROVED PROJECTS

<u>Approved Project(s)</u>	<u>Project Date</u>	<u>Ref. LNM</u>
None		

#### Advance Notice(s)

##### **FLORIDA-HAWK CHANNEL-ELLIOTT KEY**

The Following Changes will be made to the aids to navigation system in Hawk Channel at Elliott Key.

Elliott Key Daybeacon 16 (LLNR 10940) will be change to Light 16 displaying a Flashing Red 6s and TRs on pile.

Key Largo Daybeacon 25 (LLNR 11485) will be changed to Light 25 displaying Flashing Green 6 s and SGs on pile.

This action is scheduled to be completed in June, 2012.

Chart      11451      LNM: 05/12

##### **GEORGIA-INTRACOASTAL WATERWAY-BEAUFORT RIVER TO ST.SIMONS SOUND-BEAR RIVER**

The following changes will be made to the aids to navigation system in the Intracoastal Waterway in Bear River.

Bear River Range Front Light A (LLNR 36405) will be change to Bear River Light 104B displaying Quick Flash Red and TR-TY on a pile.

Bear River Range A Rear Daybeacon (LLNR 36410) will be permanently discontinued.

This action is scheduled to be completed the week of June 18, 2012.

Chart      11507      LNM: 21/12

---

### SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

---

#### PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

## SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

---

### SEACOAST-SOUTH CAROLINA-ST. HELENA SOUND AND SAVANNAH RIVER: Temporary Establishment of Uncharted Lighted Buoy.

A lighted yellow buoy has temporarily been established in position 32-16.770N 080-24.553W, in the vicinity of Fripp Island LB E (LLNR 297). All mariners are to use extreme caution when transiting this area.

Charts: 11480 11513

LNLM: 10/12

### SEACOAST-FLORIDA-BETHEL SHOAL TO JUPITER INLET-ATLANTIC OCEAN: Artificial Reef Deployment.

Martin County Engineering will begin on or about June 13, 2012 a series of artificial reef deployments to Martin County's Donaldson permitted site:

Corner

NORTHWEST 27°13'00"N 080°07'25"W

NORTHEAST 27°13'38"N 080°05'43"W

SOUTHWEST 27°10'58"N 080°06'41"W

SOUTHEAST 27°11'36"N 080°04'58"W

This project will be conducted during daylight hours only utilizing (1) barge and (1) tug with an approximate completion date of August 21, 2012. Mariners are advised to use caution and to minimize their speed around the working vessels. For further information contact Kathy Fitzpatrick at 772-288-5795 (Ref: Miami BNM #168-12)

Chart 11474

LNLM: 24/12

### FLORIDA-AMELIA ISLAND TO ST AUGUSTINE-ST AUGUSTINE INLET: Shoaling/Dangerous Inlet.

The entrance to St Augustine Inlet is subject to frequent changes in depth and direction because of shifting shoals. Buoys are not charted because of frequent changes in position. Mariners are advised to seek local knowledge prior to entering the channel.

Charts: 11485 11488

LNLM: 39/11

### FLORIDA-TOLOMATO RIVER TO PALM SHORES-PONCE DE LEON INLET: Hazard to Navigation.

Ponce de Leon Inlet North Jetty Light (LLNR 9520) and the temporary light has been destroyed. The Jetty is unlit and a hazard to navigation. Mariners are advised to exercise extreme caution in the vicinity of Ponce de Leon Inlet [Ref JAX BNM 402-11].

Charts: 11485 11486

LNLM: 42/11

### FLORIDA-PALM SHORES TO WEST PALM BEACH-SEBASTIAN INLET CHANNEL: Dredging Operations (UPDATE).

The dredge "ELLICOTT" will be working in the Sebastian Inlet Channel between Sebastian Inlet Channel Buoy 2 (LLNR 9735) and Sebastian Inlet Channel Daybeacon 24 (LLNR 9810.8) with pipeline along the north side of the channel. The dredge will monitor channels 16 and 22a. The approximate completion date is now June 30, 2012. For further information contact Dickerson Florida, Inc at 772-429-4445. Mariners are advised to use caution when transiting the area.

Chart 11472

LNLM: 12/12

### FLORIDA-FORT LAUDERDALE-PORT EVERGLADES: Dredging Operations (UPDATE).

Lucas Marine Acquisition Company, LLC will be conducting dredging operations at Port Everglades at Berths 31 & 32 approximately June 17, 2012 for approximately 2-3 weeks. Operations will be Monday through Saturday daylight hours only. Work will start at the north end of Berth 31 and continue south approximately 2000 linear feet to the end of Berth 32. The project will involve the dredge "JAY CASHMAN" and several hoppers scows. The dredges will be supported by the tug "Iron Nail" and the scows will be towed to the upland off loading site approximately 6000 linear feet east of the NW 5th Ave Bridge. All vessels will monitor VHF channels 16, 13, and 67. Project point of contact is Bruce Wood 781-630-0611.

After which, dredging operations will commence in Dania Cut-Off Canal in Broward County, starting east of the NW 5th Ave Bridge and continuing east approximately 5000 feet. The anticipated completion date is approximately January 2013. The project will involve the dredge "JAY CASHMAN" and several hoppers scows. The dredges will be supported by the tug Iron Nail and the scows will be towed to the upland off loading site approximately 6000 linear feet east of the NW 5th Ave Bridge. All vessels will monitor VHF channels 16, 13, and 67. Operations will be Monday through Saturday daylight hours only. Project point of contact is Bruce Wood 781-630-0611.

See Enclosure 10 for Project Drawing

Chart 11470

LNLM: 14/12

### FLORIDA-MIAMI HARBOR-MIAMI MAIN CHANNEL: Temporary Structure.

All mariners are advised that Miami Main Channel Entrance Range Rear Light (LLNR 10465) is discrepant. A temporary structure displaying Day/Night lights has been constructed 100 feet forward of the old structure. The temporary structure does not have a range board as a daymark.

**FLORIDA-MIAMI HARBOR-MIAMI MAIN CHANNEL: Temporary Structure.**

The temporary structure has Day/Night optics displaying Flashing Green ISO 6 (24 hours a day). The light can be seen 1.5 degrees either side of the channel centerline. Mariners should line the Day optic up with the center white line of Miami Main Channel Entrance Range Front Light dayboard or daymark when transiting during the day. There is no change to a night time transit; line up both lights.

Chart 11468

LNM: 44/11

**FLORIDA-MIAMI HARBOR-WATSON ISLAND-GOVERNMENT CUT-MIAMI MAIN CHANNEL: Port of Miami Tunnel Project.**

Nicholson will be continuing with drilling and grouting operations in Government Cut on Monday, June 18, 2012 at 5:00pm with continuous operations through Friday, June 22, 2012 at 2:00am. Operations will resume on Monday, June 25, 2012 at 5:00pm with continuous operations through Friday, June 29, 2012 at 2:00am.

This operation will consist of two drilling and grouting barges, one supply barge and one service barge. The operational set-up has changed; the operation will be set up and spudded down from Dodge Island and extending approximately 450ft. into the channel. The open channel width will now be approximately 400ft. Mariners are advised to use caution and transit at a slow speed when passing the construction site.

Charts: 11467 11468

LNM: 24/12

**FLORIDA-FLORIDA KEYS-FOWEY ROCKS TO ALLIGATOR REEF-HAWK CHANNEL: Hazard to Navigation.**

The Coast Guard has received a report of a 58ft P/C sunk in position 25-32.5N 080-08.6W. This unmarked wreckage is approximately 5ft below waterline at mean low tide. All mariners are advised to transit the area with caution. [Ref MIA BNM 318-10]

Chart 11462

LNM: 44/10

**FLORIDA-KEY WEST HARBOR AND APPROACHES-KEY WEST NORTHWEST CHANNEL: Hazard to Navigation.**

Key West Northwest Channel Jetty Light A (LLNR 15175) is destroyed and the temporary lighted buoy is missing. A new temporary buoy is on station but the light is still extinguished. Mariners are urged to use extreme caution and transit the area at a slow, safe speed.

Chart 11441

LNM: 22/12

**FLORIDA-KEY WEST HARBOR AND APPROACHES-LAKE PASSAGE CHANNEL: Hazard to Navigation**

The Coast Guard received a report that Private Aid Lake Passage Channel Daybeacon 18 (LLNR 15325) in position 24-32-19.536N, 082-00-41.349W is destroyed with 2 feet of the pile above the waterline. Mariners are advised to use extreme caution when transiting the area.

Chart 11441

LNM: 20/12

**FLORIDA-WEST COAST-TAMPA BAY-EGMONT CHANNEL: Hazard to Navigation.**

The Coast Guard received a report of a partially submerged 18ft white and blue Sea Ray with a 90 horsepower engine in approximate position 27-37.3N 082-45.58W. All mariners are advised to exercise extreme caution while transiting the area. [Ref STP BNM 775-11]

Chart 11415

LNM: 29/11

**FLORIDA-WEST COAST-TAMPA BAY-PORT MANATEE CHANNEL: Shoaling (UPDATE Temporary Position).**

Due to shoaling, Port Manatee Channel Light 12 (LLNR 22555) has been replaced by a temporary lighted buoy displaying a Q FI Red characteristic and relocated to position 27-38-05.183N 082-33-57.085W. All lighting equipment and lateral dayboards have been removed from existing structure and replaced with Danger Shoal Dayboards. Mariners are advised to use extreme caution when transiting the area.

Charts: 11412 11416

LNM: 15/12

**FLORIDA-WEST COAST-TAMPA BAY-POINT PINELLAS: Hazard to Navigation.**

There is a partially submerged 20ft white Carolina Skiff approximately 250 yards south of Point Pinellas in position 27-42.240N 082-38.143W. Mariners are advised to exercise caution when transiting the area.

Chart 11416

LNM: 33/11

**FLORIDA-WEST COAST-TAMPA BAY TO PORT RICHEY-CLEARWATER HARBOR-CLEARWATER PASS: Hazard to Navigation.**

The Coast Guard received a report of an anchored, unmanned and unlit 45ft white S/V in position 27-56.33N 082-49.46W. Between Clearwater Pass Channel LT 7 (LLNR 25700) and Clearwater Marina Channel DBN 5 (LLNR 25750) approximately 300 yards west of the Intracoastal Waterway. Mariners are advised to exercise extreme caution while transiting the area.

Chart 11411

LNM: 03/12

**FLORIDA-WEST COAST-TAMPA BAY TO PORT RICHEY-ANCLOTE RIVER: Hazard to Navigation.**

The Coast Guard received a report of an unmanned and unlit 19ft Aqua Sport white with light blue trim in the vicinity of Anclote River Entrance Light 1 (LLNR 26135) in GPS position 28-10.388N 082-49.682W. Mariners are to exercise extreme caution while transiting the area.

Chart 11411

LNM: 04/12

**FLORIDA-WEST COAST-ANCLOTE KEYS TO CRYSTAL RIVER-HERNANDO BEACH CHANNEL: Hazard to Navigation.**

The Coast Guard received a report of a sunken 25ft S/V with 2 masts showing above the waterline in approximate position 28-29.9N 082-40.1W in the channel between Hernando Beach Channel DBN 64 (LLNR 27770) and Hernando Beach Channel DBN 66 (LLNR 27780). [Ref: STP BNM 877-11]

Chart 11409

LNM: 34/11

**FLORIDA-WEST COAST-ANCLOTE KEYS TO CRYSTAL RIVER: Hernando Beach Channel (UPDATE).**

**FLORIDA-WEST COAST-ANCLOTE KEYS TO CRYSTAL RIVER: Hernando Beach Channel (UPDATE).**

B.C. Peabody Construction Services have completed dredging operations in the Hernando Beach Channel. The dredging project has altered the navigable channel slightly. The aids marking the channel have been relocated, removed and some changed from daybeacons to lights. Mariners are advised to use caution while transiting the area.

Chart 11409

LNM: 05/12

**FLORIDA-WEST COAST-CRYSTAL RIVER TO HORSESHOE POINT- CEDAR KEYS MAIN CHANNEL: Hazard to Navigation.**

The Coast Guard received a report of a 27ft derelict blue sport vessel submerged 1,320 yards NW of Cedar Keys Main Channel Light 7 (LLNR 29765) with 15ft of its mast above the waterline in approximate position 29-05.45N 083-04.51W. All mariners are advised to exercise caution while transiting the area. [Ref: STP BNM 643-11]

Chart 11408

LNM: 23/11

**SOUTH CAROLINA-ATLANTIC INTRACOASTAL WATERWAY-LITTLE RIVER-WINYAH BAY: Hazard to Navigation.**

Little River-Winyah Bay Obstruction Daybeacon B (LLNR 33647) is destroyed. Mariners are urged to use extreme caution and transit the area at a slow, safe speed.

Chart 11534

LNM: 22/12

**GEORGIA-ATLANTIC INTRACOASTAL WATERWAY-BEAUFORT RIVER TO ST SIMONS SOUND-ALTAMAHA SOUND: Hazard to Navigation.**

The Coast Guard received a report of a large piece of concrete with rebar partially exposed about mid tide on the Altamaha River between Altamaha Sound Daybeacons 204 (LLNR 36915) and 206 (LLNR 36920). Mariners are advised to avoid this area.

Chart 11508

LNM: 33/11

**FLORIDA-ATLANTIC INTRACOASTAL WATERWAY-MATANZAS INLET-MOSQUITO LAGOON-HALIFAX RIVER: Hazard to Navigation.**

There is a partially submerged white 29ft S/V named Antares in approximate position 29-14.598N 081-01.765 in the vicinity of Halifax River Daybeacon 29 (LLNR 39995). Mariners are advised to use caution while transiting the area.

Chart 11485

**FLORIDA-ATLANTIC INTRACOASTAL WATERWAY-WEST PALM BEACH-NORTH OF ROYAL PARK BRIDGE: Construction Operation (UPDATE).**

Ray Qualmann Marine has commenced operations September 2011 on the west side of the Intracoastal Waterway along Flagler Blvd., just north of the Royal Park Bridge. Operations will consist of sand being placed on transport barges loaded at Currie Park and delivered to South Cove to construct (3) man-made islands. The operations will be during daylight hours only. There will be (2) barges stationed at the proposed island to offload fill monitoring VHF Channels 13 or 16. The approximate completion date is now June 15, 2012. Mariners are advised to use caution while transiting the area.

## SHOALING AND HAZARDOUS SITUATIONS

The below list is not all inclusive. The U.S. Army Corps of Engineers publishes Channel Condition Surveys and Hydrographic Surveys that may be found on the Charleston, Savannah, and Jacksonville District US Army Corps of Engineers websites.

Location	Significant Information	Chart	LNLM
SC-Murrells Inlet	Shoaling has been reported in the vicinity of Murrells Inlet Buoy 26 (LLNR 1851)	11534	2707
SC-Murrells Inlet	Shoaling by Murrells Inlet Buoy 7 (LLNR 1795) Murrells Inlet Buoy 8 (LLNR 1790)	11534	1711
SC-Old House Creek	Both aids have been relocated to mark best water.		
SC-Old House Creek	Due to shoaling Old House Creek Temp Buoy 14 is now a permanent aid (LLNR 4063)	11517	2511
SC-ICW-WB Char Harbor	position 32-20-24.252N/080-28-12.599W displaying a red nun.		
SC-ICW-WB Char Harbor	Shoaling has been reported in the vicinity of Winyah Bay-Charleston Harbor	11518	3009
SC-ICW-WB Char Harbor	DBN 84 (LLNR 34390)		
SC-ICW-WB Char Harbor	Shoaling reported in the vicinity of Winyah Bay-Charleston Harbor DBN 117A	11518	1211
SC-ICW-Stono River	(LLNR 34510.5) reported depth at 3.5ft in the channel		
SC-ICW-Stono River	Shoaling has been reported between Stono River LT 31 (LLNR 34705) and Stono River	11518	1607
SC-ICW-Stono River	DBN 36 (LLNR 34720) depth reported at 6ft.		
SC-S Edisto River	Shoaling has been reported NE of S Edisto River DBN 3 (LLNR 3945) reported depth at 4ft	11517	4410
SC-ICW-Ashepoo-Coosaw	S Edisto River Buoy 3A (LLNR 3947) established in position 32-31-42.373N 080-22-40.871W		
SC-ICW-Fields Cut	Ashepoo-Coosaw Cutoff DBN 185 (35205.2) relocated due to shoaling	11518	5011
SC-ICW-Fields Cut	Extensive shoaling while entering Fields Cut from the Wright River. Reported depths at		
SC-ICW-Fields Cut	MLW 3-4ft.	11507	1308
SC-ICW-Vernon River	Severe reported shoaling between Hell's Gate DBN 89 (LLNR 36270) and Hell's Gate		
SC-ICW-Vernon River	Ogeechee River LT 92 (LLNR 36290).	11507	1706
GA-Upper Savannah River	Shoaling reported in the vicinity of Upper Savannah River in pos 33-29-38N/081-59-25W	11515	3910
GA-Ossabaw Sound	Shoaling reported in vicinity of Ossabaw Sound North Channel between DBN 10	11511	2110
GA-Ossabaw Sound	(LLNR 5760) and DBN 12 (LLNR 5770). Ossabaw Sound North Channel Buoy 10A has		
GA-Ossabaw Sound	been established in position 31-51-43.096N 081-03-00.175W		
GA-Forrest River	Shoaling reported in vicinity of Coffee Bluff, Forrest River in AP 31-55-57N 081-09-42W	11509	1409
GA-FL-St Marys River	Shoaling extending 15 yards channel ward between St Marys River DBN 6 (LLNR 6805)	11489	4511
GA-FL-St Marys River	and DBN 8 (LLNR 6810) Minimum depth reported 2ft MLW.		
GA-FL-St Marys River	Established TEMP Buoy 6A in position 30-42-51.900 081-32-00-600W		0612
GA-ICW-Rockdedund River	Shoaling has been reported in the vicinity of the Rockdedund River in approximate position	11507	5208
GA-ICW-Rockdedund River	31-22-45N 081-20.68W River Buoy 14 (LLNR 36826.4). Water depth reported 5ft low tide.		
GA-ICW-Darien River	Shoaling has been reported in the vicinity of Darien River DBN 27 (LLNR 36827.4)		
GA-ICW-Darien River	and Darien River DBN 29 (LLNR 36827.5).	11507	0508
GA-ICW-Savannah River	Shoaling reported in the area between Elba Island Cut LT 2 (LLNR 35880) and	11507	0105
GA-ICW-Savannah River	Elba Island Cut LT 4 (LLNR 35885), Soundings shows the depth between 2-4ft		
GA-ICW-Savannah River	approximately 20 yards into the channel between the aids.		
GA-ICW-Cumberland River	Shoaling has been observed at Cumberland River DBN 51 (LLNR 37560)	11489	0110
GA-ICW-Sawpit Creek	Shoaling has been reported on the east side of the channel in vicinity of Sawpit Creek LT 49	11489	2010
GA-ICW-Sawpit Creek	(LLNR 38190), TEMP 49A established to mark best water.		
FL-Amelia River	Shoaling has been reported channel ward of Amelia River LB 6 (LLNR 7070/37950)	11489	4311
FL-Amelia River	reported depth of 6ft at low tide.		
FL-ICW-Fernandina Bch	Shoaling reported in the vicinity of Fernandina Beach LT 1 (LLNR 37985)		
FL-ICW-Fernandina Bch	and Fernandina Beach LT 3 (LLNR 37900)	11489	5208
FL-ICW-Fernandina Bch	Shoaling has been reported in the vicinity of Matanzas River DBN 110 (LLNR 39673)	11485	2011
FL-ICW-Fernandina Bch	Aid has been changed permanently from DBN 110 to Buoy 110 (LLNR 39673)		1710
FL-St Johns River	Shoaling has been reported in between Norwalk Point LT 59 (LLNR 8485) and Mount Royal		
FL-St Johns River	LT 61A (LLNR 8495) with reported depths less than 5ft.	11495	3408
FL-St Johns River	Shoaling has been reported in the channel south of Mt Royal LT 63 (LLNR 8510) to Fort		
FL-St Johns River	Gates LT 65 (LLNR 8520). Depth reported at low water is 4ft.	11495	2406
FL-Ponce de Leon Inlet	Shoaling is present between Ponce de Leon Inlet Temp Buoys 8A and 8B a 4ft shoal extends	11485	1912
FL-Ponce de Leon Inlet	approximately 30 yards into the channel at low tide.		
FL-ICW-Ponce de Leon Cut	Shoal is encroaching IVO Ponce de Leon Cut, Inlet Harbor (2211)	11485	1912
FL-ICW-Ponce de Leon Cut	Buoy 2A, established Temp Buoy 2B in position 29-05-10.367N 080-56-11.204W.		
FL-ICW-Ponce de Leon Cut	Shoaling IVO Ponce de Leon Cut Junction Buoy (LLNR 40615) and encroaching (5211)	11485	1912
FL-ICW-Ponce de Leon Cut	5 yards channel ward with a depth of 4ft at low-tide, channel is very tight.		
FL-ICW-St Lucie River	Shoaling reported IVO St Lucie River LB 6 (LLNR 50700)	11472	0309
FL-ICW-St Lucie River	Shoaling reported between St Lucie River DBN 8 (LLNR 50710) and St Lucie River	11428	1510
FL-ICW-St Lucie River	DBN 10 (LLNR 50715) established TRUB 8A in position 27-10-00.514N 080-11-33.485W		
FL-ICW-St Lucie River	In the vicinity of St Lucie River (South Fork) DBN 29 (LLNR 51085) and St Lucie River	11428	2511
FL-ICW-St Lucie River	(South Fork) Buoy 30 LLNR (51090) the channel has narrowed to approximately 30 yards		
FL-ICW-St Lucie River	best water is near the green side of the channel.		
FL-ICW-St Lucie Canal	Shoaling has been reported in the vicinity of St Lucie Canal DBN 38 (LLNR 51120)	11428	3707

FL-Fort Pierce Inlet	Shoaling reported in the Banty Saunders Recreational Area private channel AKA "Little Jim Channel" between DBN 14 (LLNR 9900), DBN 19 (LLNR 9925) and a private channel known as "Shorty's Slough" between DBN 9 (LLNR 9885) and DBN 11 (LLNR 9890) water depths reported 3-5ft at low tide.	11475	1311
FL-Fort Pierce Inlet	Shoaling has been reported to depths of 17ft channel ward of Fort Pierce Inlet Inner Harbor LB 11 (LLNR 9850).	11475 11472	4111
FL-ICW-Bakers Haulover	Shoaling has continued to encroach to the west around Temp aids 7A, 7B and 7C	11467	2811
FL-Key West NW Channel	Shoaling has been reported between Key West Northwest Channel LB 3 (LLNR 15185) and LB 5 (LLNR 15195), USACOE survey shows channel is below project depth	11411	0611
FL-Dry Tortugas -Ft Jefferson	Shoaling has been reported in Fort Jefferson East Channel. The controlling depth for the Channel is approximately 6ft.	11438	3811
FL-Big Marco Pass	Shoaling has been reported extending the width of the channel extending 100 yards south of Big Marcos Pass-Gordon Pass DBN 67 (LLNR 17420.5) at a depth of 4.1ft to 5.5ft MLW, extending 100 yards south of Big Marcos Pass-Gordon Pass DBN 71 (LLNR 17435) reported depth 4.5ft to 5.5ft, and extending 50 yards south of Big Marcos Pass-Gordon Pass DBN 31 (LLNR 17295) at a depth of 3.5 to 4.5ft at MLW.	11430	1709
FL-Wiggins Pass	Extensive shoaling has been reported in Wiggins Pass Inlet in between Wiggins Pass DBN 1 (LLNR 17780) and Wiggins Pass DBN 2 (LLNR 17785)	11427	2510
FL-Matanzas Pass	Due to encroaching shoaling between Matanzas Pass Channel DBN 4 (LLNR 18095) and DBN 6 (LLNR 18110) DBN 4 has been relocated to position 26-27-54.046N/081-58-07.981W.	11427	0512
FL-Charlotte Harbor	Shoaling has been reported to depths of 7ft extending from the vicinity of Charlotte Harbor Channel Buoy 3A (LLNR 19915) channel ward to the center of the channel.	11425	0712
FL-New Pass	Extensive shoaling exist from New Pass LT NP (LLNR 1345/21585) to New Pass Channel LT 7 (LLNR 21620), water depths are constantly changing and surf breaking.	11425	3605
FL-Longboat Pass	Shoaling has been reported between Longboat Pass Approach LT LP (LLNR 2755) and Longboat Pass DBN 1 (LLNR 21757) reported depth 8-9ft MLW.	11425	2609
FL-Big Sarasota Pass	Shoaling reported between Big Sarasota Pass DBN 3 (LLNR 21500.3) and Big Sarasota Pass DBN 4 (LLNR 21500.4)	11425	0810
FL-Tampa Bay	Shoaling reported between New Pass Buoy 3A (LLNR 21595) and New Pass LT (LLNR 21620), extending 20 yards channel ward.	11425	4004
FL-Tampa Bay	Shoaling has been reported - Manatee River DBN 3 (LLNR 21870) has been established in position 27-32-10.760N 082-40-08.436W to mark shoal.	11425	1911
FL-Tampa Bay	Shoaling reported between Clearwater Marina Channel DBN 2 (LLNR 25730) and Clearwater Mariner Channel DBN 3 (LLNR 25735) encroaching eastward into the center of channel. Water Depth reported at 3ft to 5ft. Shoaling most prominent in the vicinity of LT 3 (LLNR 25735) channel ward within 100ft.	11411	2009
FL-Tampa Bay	Shoaling reported extending approximately 30 yards channel ward between Pithlatchascotee River DBN 36 (LLNR 26745) and Pithlatchascotee River DBN 38 (LLNR 26750) water depth is 3ft at MLW.	11411	1709

### C. BRIDGE INFORMATION.

#### SOUTH CAROLINA – ST HELENA SOUND – ASHEPOO RIVER – US 17 BRIDGE: Bridge Construction.

Lane Construction is currently working on the replacement of the US 17 Bridge across the Ashepoo River mile 32.5, Green Pond, South Carolina. This work is expected to be completed by March 15, 2013. As the construction phase has processed to beam setting across the navigable channel, mariners are reminded that the contractor will be requesting vessel traffic to stop/hold until the beams are set in place to ensure the safety of the workers as well as navigation. This phase of the process is expected to be completed by April 13, 2012.

GEORGIA – ATLANTIC INTRACOASTAL WATERWAY – BEAUFORT RIVER TO ST SIMONS SOUND – SKIDAWAY NARROWS BRIDGE: Bridge Replacement.

The Skidaway Narrows (Diamond Causeway/SR 204) Bridge across the Atlantic Intracoastal Waterway mile 592.8, Chatham County, Georgia is being replaced. United Contractor, LLC has advised the Coast Guard Captain of the Port Savannah that they will be placing floating equipment in Skidaway Narrows at this bridge location. Two construction barges and the pushboat PYTHON will be working adjacent to the bascule bridge on the north side, south of the power lines. During daylight hours the navigable waterway will be restricted to 70 feet. Construction operations, during the evenings, will not restrict the navigable waterway. Construction will be ongoing until April 2, 2012. Mariners are urged to exercise caution and transit at their slowest safe speed. Please contact the pushboat PYTHON on marine VHF radio channel 9 for on-scene coordination, communication and passing arrangements. For further information contact the U.S. Coast Guard MSU Savannah at (912) 247-0073.

The contractor will be removing the old bascule bridge through September 2012. The existing drawbridge will remain operational until removal. There are no changes to vertical and horizontal clearances. The new fixed Diamond Causeway Bridge will have a vertical clearance of 65 feet and a horizontal clearance of 180 feet.

Additional information is available at <https://homeport.uscg.mil/savannah> reference MSSB 16-12.

FLORIDA – ATLANTIC INTRACOASTAL WATERWAY – WEST PALM BEACH TO MIAMI – WEST PALM BEACH – LAKE AVENUE/ROBERT HARRIS BRIDGE: Special Bridge Regulations.

District Seven Bridge Branch office has been contacted by a Florida State Representative and the City of West Palm Beach with regard to vehicle traffic congestion concerns created by the removal of the East Ocean Avenue Bridge. Vehicle traffic has been detoured to the Lake Avenue/Robert Harris SR 802 Bridge across the Atlantic Intracoastal Waterway mile 1028.8, West Palm Beach, Florida; for this reason they have requested that this bridge be placed on a twice an hour schedule. This office has evaluated the situation and determined that starting on May 1, 2012 the draw of the Lake Avenue/Robert Harris (SR 802) will open on the quarter-hour and three-

quarter-hour, 24 hours-a-day, seven days-a-week. Public vessels of the United States and tugs with tows must be passed at anytime. This temporary schedule is expected to continue until April, 2013.

Chart: 11468/11467

FLORIDA – ATLANTIC INTRACOASTAL WATERWAY – WEST PALM BEACH TO MIAMI – PORT OF MIAMI RAILROAD BRIDGE: Bridge Repairs.

Due to extensive repairs to the Port of Miami Railroad Bridge across the Atlantic Intracoastal Waterway, Miami-Dade County, Florida, the bridge contractor, PCL Constructors Inc are beginning repair operations on the Port of Miami's FEC railroad bridge. The bridge is allowed to be in the down position when the Security Zone is not enforced and the Miami Main Channel is open for normal traffic. On days when the bridge is in the down position there will be 15 minute openings at 11:45 am, 1:45 pm, and 3:45pm. Upcoming bridge closings are published below. Clearance gauges are also under repair and do not currently read properly. PCL will be monitoring Marine Channel 9. PCL POC - Adlai Jourdin (561) 253-6995.

Additional closure dates in June are:

June 5-7th  
June 12-14th  
June 19-21st  
June 26-28th

If for any reason the Miami Main Channel Security Zone is in force during these dates, the bridge will not be allowed to remain closed. This work is expected to be completed in January 2013.

Chart: 11428

FLORIDA – OKEECHOBEE WATERWAY – (SOUTH FORK) ST LUCIE CANAL – INDIAN STREET BRIDGE: Bridge Construction.

The contractor constructing the Indian Street Bridge across the south fork of the St. Lucie Canal has advised this office that they have started construction of the portion of the bridge that crosses the St. Lucie Lagoon. They have installed a temporary trestle and floating turbidity barrier in this area. This portion of the work is expected to continue through April 2012. The contractor will be providing additional information prior to starting the portion of the bridge that crosses the South Fork of the St. Lucie Canal. The anticipated completion date of this project is April 30, 2013.

The contractor has begun placing a temporary trestle in the vicinity of the (South Fork) St. Lucie Canal. This temporary trestle is not expected to impact the main navigational channel. The contractor has a crane barge in the area that may restrict a small portion of the navigation channel. The contractor will be placing beams onto a barge which will be used for the main portions of the new bridge, during the time that the contractor places the beam onto the barge and the crane places the new beam onto the bridge, the channel will be closed to navigation for safety reasons. The exact schedule for this operation will be published in future Local Notice to Mariners.

Chart: 11415

FLORIDA - GULF INTRACOASTAL WATERWAY - TAMPA BAY TO ANCLOTE - PINELLAS BAYWAY "STRUCTURE E" (TERRA VERDE) BRIDGE: Bridge Construction.

The Pinellas Bayway "Structure E" (Terra Verde) Bridge across Gulf Intracoastal Waterway, St. Petersburg, Pinellas County, Florida is being repaired. This project started on May 14, 2012 is expected to be completed by April 1, 2013. Due to the nature of these repairs M&J Construction will have floating equipment in the area and has assured the Coast Guard that this equipment can be moved outside the channel limits upon request. Any delays should be reported directly to the Coast Guard at 305-415-6744 and a follow up email should be sent to [Michael.b.lieberum@uscg.mil](mailto:Michael.b.lieberum@uscg.mil) with a copy to [Jessica.r.hopkins@uscg.mil](mailto:Jessica.r.hopkins@uscg.mil). The contractor has requested that this bridge be placed on single-leaf operations from 7:00 a.m. on September 24, 2012 through 5:00 p.m. on October 11, 2012 and from 7:00 a.m. October 15, 2012 through 5:00 pm. October 31, 2012. During this time no double-leaf operations will be available due to machinery removal and replacement. Any objections to these single-leaf operation dates should be sent to [Michael.b.lieberum@uscg.mil](mailto:Michael.b.lieberum@uscg.mil) no later than August 1, 2012.

Mariners are cautioned that a scaffolding system will be placed on this bridge outside the navigable channel limits which will reduce the vertical clearance on the approaches. Mariners are requested to transit through the main navigable channel during these repairs.

## **MARINE EVENTS**

### **FLORIDA-STUART-ST LUCIE RIVER: July 4<sup>th</sup> Fireworks**

The Stuart Main Street 4th of July Celebration Fireworks Display will be held July 4, 2012 between 9:00 p.m. and 9:30 p.m. in Stuart, FL on the St Lucie River northwest of Martin Memorial Medical Center. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

### **FLORIDA-AICW-WEST PALM BEACH: July 4<sup>th</sup> Fireworks**

The West Palm Beach 4th of July Celebration Fireworks Display will be held July 4, 2012 between 9:20 p.m. and 9:35 p.m. in Palm Beach, FL in the downtown Flagler Area. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

### **FLORIDA-LAKE WORTH: July 4<sup>th</sup> Fireworks**

The Lake Worth 4th of July Fireworks Display will be held July 4, 2012 between 9:00 and 9:25 p.m. in Lake Worth, FL. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

### **FLORIDA-PALM BEACH-LANTANA: July 4<sup>th</sup> Fireworks**

The Town of Lantana 4th of July Fireworks Display will be held July 4, 2012 between 9:00 p.m. and 9:25 p.m. in Lantana, FL. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

### **FLORIDA-AICW-BOYNTON BEACH: July 4<sup>th</sup> Fireworks**

Fireworks by Grucci will sponsor the Boynton Beach Community - Independence Day Celebration Fireworks Display on July 4, 2012. The display will be held between the hours of 8:30 p.m. and 9:30 p.m., in the Intracoastal Waterway, northwest of Ocean Inlet Park, FL. For more information, please contact LT Jennifer Makowski at (305) 535-8724.

### **FLORIDA-DELRAY BEACH: July 4<sup>th</sup> Fireworks**

Fireworks by Grucci will sponsor the Delray Beach Downtown Marketing Cooperative - 4th of July Celebration July 4, 2012 between 8:30 p.m. and 9:30 p.m. The display will be held offshore in Delray Beach, FL. For more information, please contact LT Jennifer Makowski at (305) 535-8724.

**FLORIDA-DEERFIELD BEACH: July 4<sup>th</sup> Fireworks**

Zambelli Fireworks will sponsor the Deerfield Beach 4th of July Fireworks Celebration. The display will take place from the end of the northeast 2nd Street pier in Deerfield Beach, FL. on Wednesday July 4th, 2012 between 9:00 p.m. and 9:30 p.m. For more information, please contact LT Jennifer Makowski at (305) 535-8724.

**FLORIDA-POMPAÑO BEACH: July 4<sup>th</sup> Fireworks**

The City of Pompano Beach 4th of July Fireworks Display will be held July 4, 2012 between 9 p.m. and 9:30 p.m. in Pompano Beach, FL offshore just south of the Pompano Pier. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

**FLORIDA-LAUDERDALE-BY-THE-SEA: July 4<sup>th</sup> Fireworks**

The Town of Lauderdale-by-the-Sea 4th of July Fireworks Display will be held July 4, 2012 between 9:00 p.m. and 9:30 p.m. in Lauderdale-by-the-Sea, FL. This will be a beach launched display. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

**FLORIDA-MIAMI-BAL HARBOUR: July 4<sup>th</sup> Fireworks**

Zambelli Fireworks Inc. will sponsor the Village of Bal Harbour July 4th Celebration Fireworks Display July 4 between 9:00 p.m. and 9:25 p.m. The display will launch from the south jetty of Bakers Haulover Inlet in Bal Harbour, FL. For more information, please contact LT Jennifer Makowski at (305) 535-8724.

**FLORIDA-MIAMI-MIAMI BEACH-BEACHFRONT: July 4<sup>th</sup> Fireworks**

The Miami Beach 4th of July Fireworks Display will be held July 4, 2012 between 9:00 p.m. and 9:20 p.m. on Miami Beach, FL, east of 8th Street. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

**FLORIDA-MIAMI-BAYFRONT PARK: Independence Day Celebration**

The Bayfront Park Independence Day Celebration Fireworks Display will be held July 4, 2012 between 9:00 p.m. and 9:30 p.m. in Miami, FL. There are approximately 200 spectator boats. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

### **FLORIDA-MIAMI-KEY BISCAYNE: July 4<sup>th</sup> Fireworks**

The Village of Key Biscayne - 4th of July Fireworks Display will be held July 4, 2012 between 8:30p.m. and 9:30p.m. in Key Biscayne, FL off Grand Bay. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

### **FLORIDA-MIAMI-COCONUT GROVE: July 4<sup>th</sup> Fireworks**

The Grove Isles 4th of July Fireworks Display will be held July 4, 2012 between 9:00 p.m. and 9:15 p.m. in Coconut Grove, FL off Kennedy Park. The Coast Guard will not be issuing a permit for this event. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

A safety zone is established for a fireworks display conducted on 4<sup>th</sup> July 2012 between 9:00 p.m. to 9:20 p.m. The safety zone is circular in shape and extends in a 200 yard radius from the launch vessel anchored in position 18-19'55"N 064-48'06"W in Cruz Bay, St John. No vessels are allowed to enter, anchor, moor or transit within the zone unless authorized by the Coast Guard on scene Patrol Commander. The Coast Guard may be contacted via VHF FM channel 16 or 787-289-2041.

### ***MARINE EVENT PROPOSAL: FLORIDA-MIAMI-MIAMI BEACH: Miami Super Boat Grand Prix***

The U.S. Coast Guard Sector Miami is proposing to issue a marine event permit to the Super Boat International Productions Inc. for the Miami Super Boat Grand Prix. This high speed boat race is scheduled to occur off Miami Beach, FL on July 13-15, 2012, between the hours of 10:00 a.m. to 4:00 p.m. The Coast Guard is also planning to establish a Special Local Regulation. A National Environmental Policy Act review has been conducted and an Environmental Assessment prepared. The Environmental Assessment is available for public review and comment at U.S. Coast Guard Sector Miami from 28 May through 28 June, 2012. To schedule an appointment to review the document, or to receive an electronic copy please contact BM1 Kyle Jennings at (305)-535-4317 or via email at [John.K.Jennings@uscg.mil](mailto:John.K.Jennings@uscg.mil).

### **WEST INDIES –PUERTO RICO-SAN JUAN HARBOR: San Juan Offshore Festival 2012**

The Puerto Rico Offshore Series Inc. is sponsoring the San Juan Offshore Festival 2012 on July 15, 2012 between the hours of 1:30p.m. to 3:00p.m. This will be a high speed boat race inside of San Juan Harbor with approximately Thirty (30) 24'-36' speed boats participating. There will be approximately 75 spectator vessels in the designated spectator area. During the one and one half hour event San Juan Harbor will be closed to traffic.

(1) Race Area. All waters of San Juan Harbor encompassed within an imaginary line connecting the following points: starting at Point 1 in position 18°28.016N, 66°07.582W; thence southwest to Point 2 in position 18°28.002N, 66°07.630W; thence south to Point 3 in position 18°26.876N, 66°07.607W; thence southeast to point 4 in position 18°26.794N, 66°07.498W; thence east to point 5 in position 18°26.786N, 66°06.903W; thence northeast to point 6 in position 18°26.992N,

66°06.687W; thence north to point 7 in position 18°27.105N, 66°06.694W; thence northwest back to origin. All persons and vessels, except those persons and vessels participating in the high-speed boat race, are prohibited from entering, transiting through, anchoring in, or remaining within the race area.

(2) Buffer Zone. All waters of San Juan Harbor encompassed within an imaginary line connecting the following points: starting at Point 1 in position 18°28.050N, 66°07.693W; thence south to Point 2 in position 18°26.853N, 66°07.682W; thence southeast to Point 3 in position 18°26.721N, 66°07.518W; thence east to point 4 in position 18°26.721N, 66°06.821W; thence northeast to point 5 in position 18°27.035N, 66°06.527W; thence northwest to point 6 in position 18°28.061N, 66°07.546W; thence west back to origin. All persons and vessels except those persons and vessels enforcing the buffer zone are prohibited from entering, transiting through, anchoring in, or remaining within the buffer zone.

(3) Spectator Area. All waters of San Juan Harbor excluding the race areas and buffer zone, encompassed within an imaginary line connecting the following points: starting at Point 1 in position 18°26.925N, 66°07.750W; thence southeast to Point 2 in position 18°26.810N, 66°07.720W; thence southeast to Point 3 in position 18°26.660N, 66°07.510W; thence east to Point 4 in position 18°26.640N, 66°07.330W. All vessels are prohibited from anchoring in the spectator area. On-scene designated representatives will direct spectator vessels to the spectator area.

#### **WEST INDIES-SAN JUAN: Cruce A Nado (San Juan Swim)**

A temporary safety zone is established for a Swim Event on July 22, 2012 between 1:30 p.m. to 3:00 p.m. The zone includes all waters of San Juan Harbor encompassed within an imaginary line connecting the following points: starting at Point 1 in position 18-27'33"N 066-07'00"W; thence south to Point 2 in position 18-26'36"N, 066-07'00"W; thence east along the Catano shoreline to Point 3 in position 18-26'40"N 066-06'48"W; thence north to Point 4 in position 18-27' 40"N, 066-06'49"W; thence west along the shoreline back to origin. All non-participating persons and vessels are prohibited from entering the regulated area without permission from the Coast Guard on scene Patrol Commander. The Coast Guard may be contacted via VHF-FM channel 16 or 787-289-2041.

#### **FLORIDA-ICW-PALM BEACH-LANTANA: Old Key Lime House Wake Boarding Event**

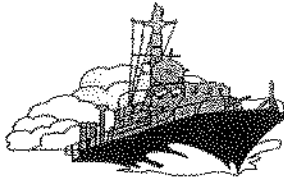

The Old Key Lime House Wake Boarding Event will be held July 28, 2012 between 10:00 a.m. and 5:00 p.m. in Lantana, FL. The Coast Guard will not be issuing a permit for this event. There are approximately 3-6 participant vessels 20ft in length. The sponsor deems their patrols adequate for traffic escort and does not request Coast Guard for control of spectator and/or commercial traffic. No Safety Zone will be drafted for the event.

#### **FLORIDA-POMPANNO BEACH-HILLSBORO INLET- Pompano Beach Saltwater Showdown Fishing Tournament**

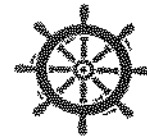

Bluewater Movements, Inc. will sponsor the Pompano Beach Saltwater Showdown August 4, 2012 between 7:00 a.m. and 5:00 p.m. The event will depart from Hillsboro Inlet in Pompano Beach, FL. There will be approximately 140 participants in 20-45ft Outboard/Sportfish boats, fishing offshore during the tournament. For more information, please contact LT Jennifer Makowski at (305) 535-8724.

## S-193 NAVIGATION LOCK REFURBISHMENT OKEECHOBEE COUNTY, TAYLOR CREEK, FL

1. Mariners are hereby notified to use caution when navigating around Lake Okeechobee and Taylor Creek. The S-193 navigation lock is located between Lake Okeechobee and Taylor Creek, in the LD4 levee about 2.5 miles southeast of the City of Okeechobee, will be closed from April 2012 through September 2012. The South Florida Water Management District (SFWMD) is responsible for maintaining and operating this structure.
2. Specific Project related information: The SFWMD has determined that the S-193 navigation lock needs to be refurbished. The work consists of dewatering the main lock chamber, removing lead paint if required, sand blasting and paint gate, replacement of existing gate fenders, and replacement of existing fender system piles and wales. The dewatering of the navigation chamber will pump water from the chamber to a receiving water body either upstream or downstream of lock with close turbidity monitoring.
3. Mariners should operate vessels with caution in the area due to potential of floating debris, navigational buoys and the heavy equipment in the area. When travelling the Okeechobee Waterway, please wear your life jackets and be conscious of the wake you create and its impacts on boaters.
4. Additional information concerning this project and the adjoining areas may be obtained by accessing the Jacksonville District web site at <http://www.saj.usace.army.mil> and choose OPERATIONS DIVISION and select NOTICE TO NAVIGATION from the pull down menu. U.S. Army Corps of Engineers Point of Contact is the Palm Beach Gardens Regulatory Section at (561) 472-3516.

**PRESS RELEASE**

Collins Engineers, Inc. of Charleston, SC announces the routine above water inspection of the bridges listed below in both Charleston and Berkeley County. Temporary lane/shoulder and ramp closures will be performed for topside and aerial underside inspection efforts. Collins will also employ a 22 ft C-Dory vessel for safety and inspection of the substructure elements in the water. The inspections over the navigable waterways shall occur during the following approximate periods:

SC 517 over ICWW (Isle of Palms Connector) – 8:00am to 5:00pm – April 26 through May 2, 2012

I526 over Wando River – 8:00am to 5:00pm – May 2 through May 15, 2012

I526 over Cooper River (Don Holt Bridge) – 9:00pm to 5:00am – May 18 through May 30, 2012

SC 30 over ICWW & Ashley River (James Island Expressway) – 9:00pm to 5:00am – June 4 through July 14, 2012

This notification is solely for information purposes and if the inspection efforts extend beyond provided dates listed above a further notification will be issued.

If you have any questions or need further information, please contact the Collins Engineers, Inc. Project Manager Jon Carroll at 843-884-2027 (office) or 843-991-6967 (cell).

Jon Carroll  
Project Manager, Collins Engineers, Inc.

## Marine Events in the Low Country Waterways (Sector Charleston)

### OFFSHORE (ATLANTIC OCEAN)

6-9 June; 8 a.m. to 3 p.m. each day - The Bohicket Marina will sponsor the Bohicket Invitational Billfish Fishing Tournament. There will be approximately 30 - 40 participants in 30' – 60' Outboard/Sportfish boats, fishing offshore during the tournament. The Coast Guard is not issuing a Marine Event Permit for this event. For more information, please contact Mr. Bryan Richardson at (843) 768-1280.

27-30 June; 8 a.m. to 3 p.m. each day - The Carolina Billfish Classic, LLC will sponsor the Carolina Billfish Classic Fishing Tournament. There will be approximately 300 participants in 27' – 72' Outboard/Sportfish boats, fishing offshore during the tournament. The Coast Guard is not issuing a Marine Event Permit for this event. For more information, please contact Ms. Deidre Menefce at (843) 345-0369.

### CHARLESTON HARBOR/WANDO, COOPER OR ASHLEY RIVERS

1-2 June 9 a.m. to 5:30 p.m.; 3 June 9 a.m. to 2 p.m. – The James Island Yacht Club will be hosting the Special Olympics Open Regatta. There will be approximately 75 participants, with 12 – 24 sailing vessels on the water at one time. The Coast Guard is not issuing a Marine Event Permit. For more information, please contact David Hazeltine at (843)406-9798.

12 June; 10 a.m. to 3 p.m. – The Rotary Club of Daniel Island will be hosting the Rotary Club of Daniel Island 6th Charity Duck Race. Approximately 1000 rubber ducks will be dropped from the I-526 Bridge and float to Daniel Island Children's Park. Moran Environmental will provide 600' of retention boom to control and capture the ducks. The Coast Guard is not issuing a Marine Event Permit for this event. For more information please contact Mr. Michael Sudzina at (843) 471-2262.

18 June; 9 a.m. to 2 p.m. – Riverdogs' Promotions and Patriot's Point will sponsor the USS Yorktown All-Star Batting Practice. Members of the River Dogs Baseball team will be hitting baseballs from the flightdeck of the USS Yorktown into the Cooper River. The Coast Guard is not issuing a Marine Event Permit for this event. For more information, please contact Mr. Dave Echols at (843) 577-3647 or Mr. Noel Blaha at (843) 723-7241.

## ATLANTIC INTRACOASTAL WATERWAY

No upcoming events in this area.

## GEORGETOWN/ MURRELLS INLET/ WACCAMAW RIVER

23-24 June: 12 p.m. to 7 p.m. – The Outboard Drag Boat Association (ODBA) will host the ODBA Draggin on the Waccamaw. There will be approximately 40 participants competing in the boat races on the Waccamaw River. The Coast Guard is issuing a Marine Event Permit and enforcing a safety zone for this event. For more information, please contact Dr. Johnny Staples at (803) 608-0429.

## INLAND RIVER OR LAKES

2 June; 6 a.m. to 5 p.m. – The 57th Beaufort Water Festival (BWF) will host the BWF Family Fishing Tournament. There will be approximately 100 participants in various sized motor and non-motor fishing boats. The Coast Guard is not issuing a Marine Event Permit for this event. For more information please contact Mr. Erin Morris at (843) 247-1649.

9 June; 12 p.m. to 3 p.m. – The 57th Beaufort Water Festival (BWF) will host the BWF Kayak River Clean-up. There will be approximately 50 participants in various sized kayaks and canoes. The Coast Guard is not issuing a Marine Event Permit for this event. For more information please contact Mr. Erin Morris at (843) 247-1649.

10 June; 8:30 p.m. start – The Spoleto Festival USA will be hosting the Spoleto Festival USA Firework Finale. There will be approximately 2500 participants on land. The Coast Guard is not issuing a Marine Event Permit for this event. For more information please contact Mr. Rhys Williams at (843) 720-1140.

30 June; 9:20 p.m. to 10 p.m. – Lake Murray County-Capital City will host the Lake Murray July 4th Fireworks Celebration at Spence and Drehr Island State Park. The Coast Guard will be enforcing a safety zone for this event. For more information please contact Mr. Dennis Brady Sr. at (631) 390-8620.

### **S-65A Navigation Lock Scheduled to Close for Three Weeks**

*Inspection and maintenance will ensure the lock's continued safe operation*

**WHAT:** The S-65A Navigation Lock on the Kissimmee River is scheduled to be closed to boat traffic for three weeks beginning June 4. The closure is necessary for inspection and maintenance that will ensure continued safe operation of the lock.

The navigation lock is located about 11 miles south of State Road 60 in the northern part of the Kissimmee River. The work will not impact water flow for flood control.

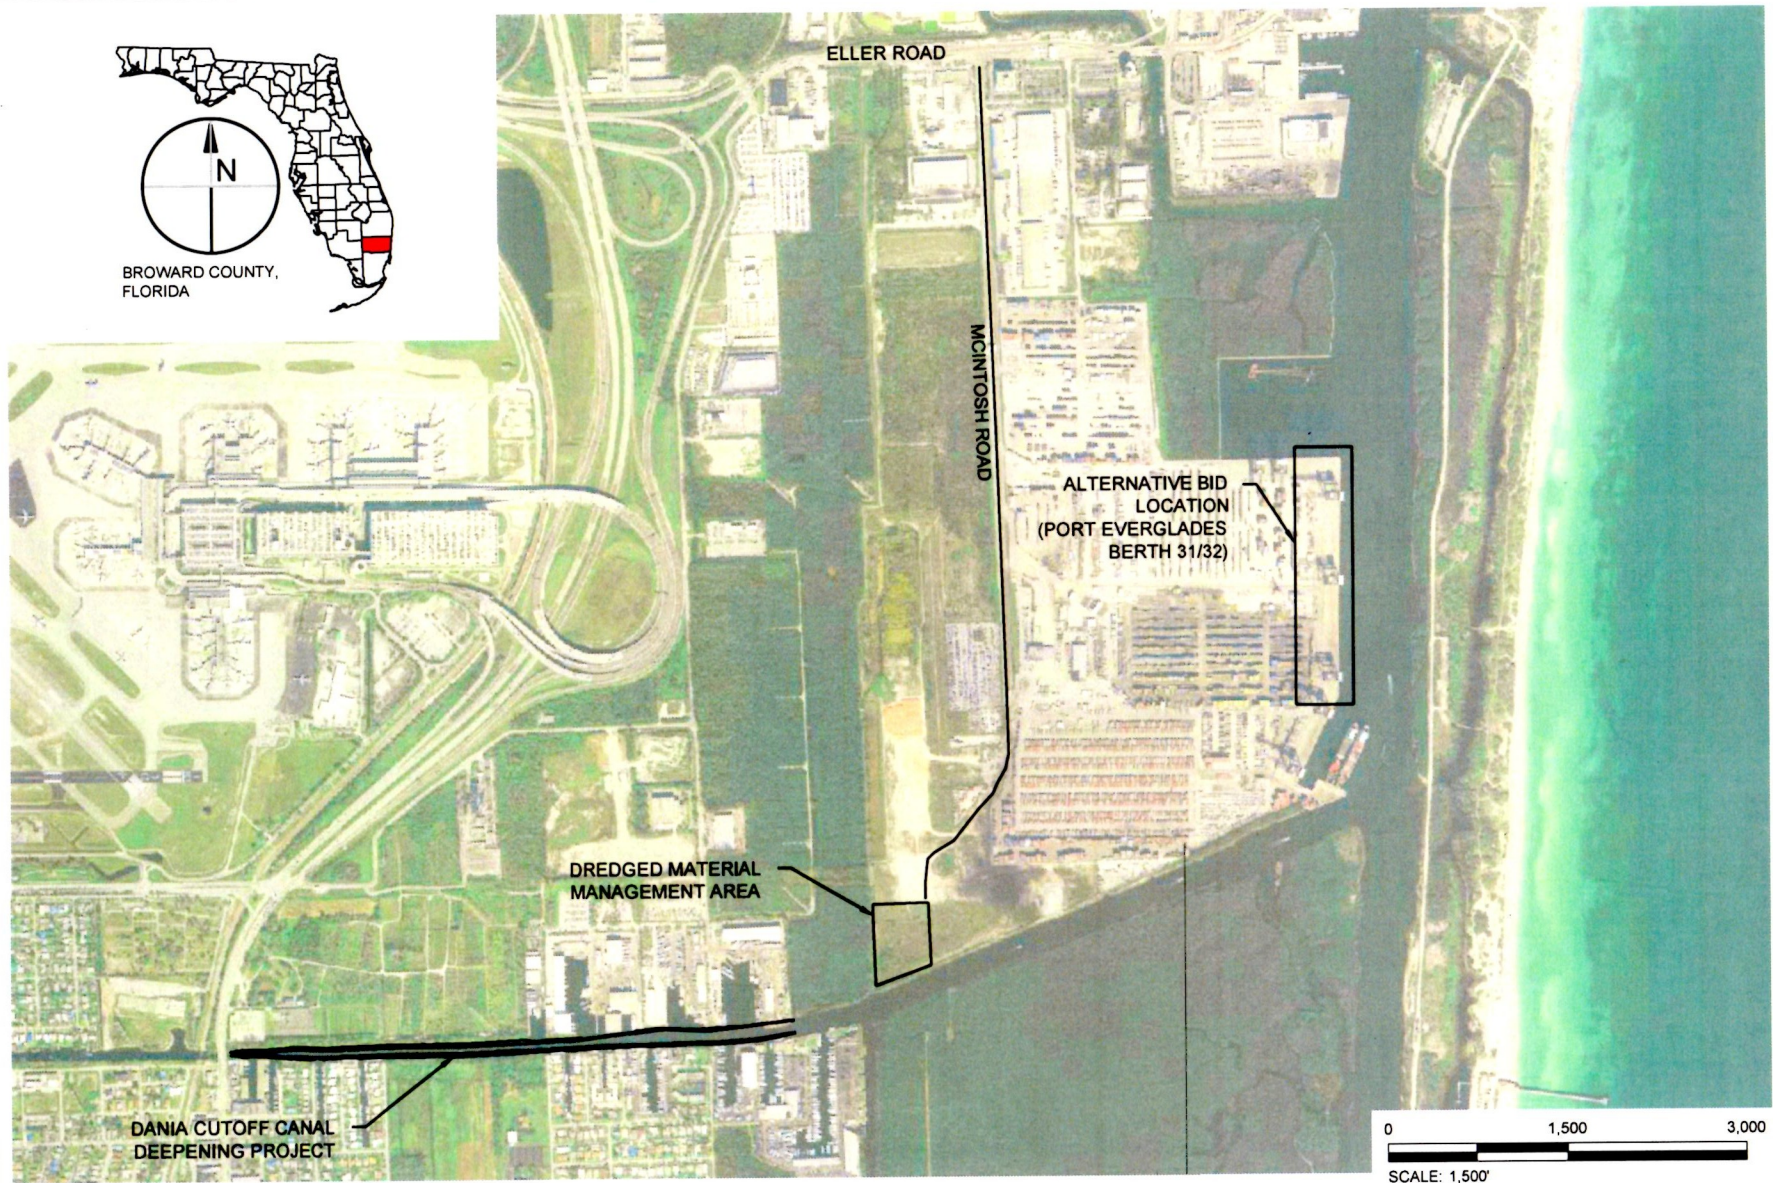

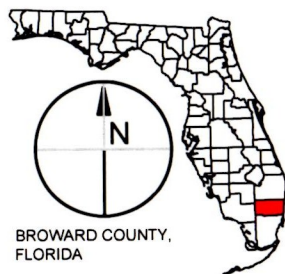

Boaters can access the restored section of the Kissimmee River from the S-65C Boat Ramp or the Istokpoga Canal Boat Ramp off U.S. Highway 98, both of which are near Lorida.

**WHEN:** The lock is scheduled to reopen to boat traffic on June 27.

### **About the South Florida Water Management District**

*The South Florida Water Management District is a regional, governmental agency that oversees the water resources in the southern half of the state – 16 counties from Orlando to the Keys. It is the oldest and largest of the state's five water management districts. The agency mission is to manage and protect water resources of the region by balancing and improving water quality, flood control, natural systems and water supply. A key initiative is cleanup and restoration of the Everglades.*

SHEET	
DATE	JULY 2011

MARINE SAFETY INFORMATION BULLETIN (MSIB 31-12) Special Local Regulations;  
Outboard Drag Boat Association Draggin' on the Waccamaw, Intra-Coastal Waterway,  
Bucksport, South Carolina.

The Coast Guard is establishing Special Local Regulations for the ODBA Draggin' on the Waccamaw Drag Boat Races on the Intracoastal Waterway in Bucksport, SC from 11:00 a.m. until 7 p.m. on June 23 and June 24, 2012. Approximately 40 twenty foot boats will be racing side by side for a quarter mile on the Waccamaw River.

The Captain of the Port Charleston will establish and enforce a Special Local Regulation to protect participants from the hazards associated with this event. Provisions will be made to allow marine traffic to transit through the area between races. The regulated area will be bounded by the following coordinates:

33° 39' 11.46"N 079° 05' 36.78W  
33° 39' 12.18"N 079° 05' 47.76W  
33° 38' 39.48"N 079° 05' 37.44W  
33° 38' 42.30"N 079° 05' 30.60W

No one shall enter transit through, anchor in or remain within the regulated area unless specifically authorized by the Captain of the Port or his designated representative.

All persons requesting to transit through the regulated area must contact the Coast Guard via VHF-FM channel 16 or by telephone at: (843) 740-7050. For any concerns, please contact Sector Charleston Waterways Management Office at: (843) 740-3188 or the 24 Hour Command Center Line at: (843) 740-7050.

## NOTICE TO NAVIGATION INTERESTS

### EMERGENCY REPAIRS, OKEECHOBEE WATERWAY, ST. LUCIE, FLORIDA

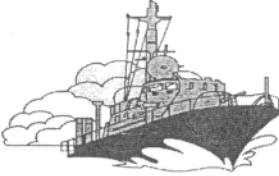

1. **St. Lucie Lock Closure Update:** This is an update to the previous Notice to Navigation issued on 17 May 2012 regarding the temporary closure of St. Lucie Lock. St. Lucie Lock will now be closed beginning on June 18, 2012 through June 30, 2012 for emergency repairs to the gate seals. Last day for vessels to transit the lock is Sunday June 17, 2012. If any dates are changed after the date of this notice, a new Notice to Navigation will be issued when the new completion dates have been determined. Please call the US Army Corps of Engineers at 904-232-2103 (Aaron Kelly) for the latest information regarding the lock status. Information will also be updated on the link provided as soon as known.
2. Additional information concerning St. Lucie Lock or other Navigational interests may be obtained by accessing the Jacksonville District web site at <http://www.saj.usace.army.mil> and choosing the OPERATIONS DIVISION tab and selecting the NOTICE TO NAVIGATION from the pull down menu.

UPDATE: Moore Haven Lock Closure  
Okeechobee Waterway, Florida

1. Mariners are hereby notified of the closure of Moore Haven Lock for installation of a Manatee Protection System (MPS) has been changed.
2. The Lock will be closed to navigation beginning 11 June 2012 for approximately 8 weeks. Moore Haven Lock reopening is anticipated 06 August 2012.
3. Navigation interests are urged to take the closures into consideration when planning their operations. Every effort will be made to reopen the lock to navigation at the earliest possible date.
4. Additional information regarding this issue and others may be obtained by accessing the Jacksonville District U.S. Army Corps of Engineers website at:

## **HERBERT HOOVER DIKE REHABILITATION PROJECT CULVERT C-1 AND C-1A REPLACEMENT ADJACENT TO ROUTE 2 OF THE OKEECHOBEE WATERWAY**

Mariners transiting the Okeechobee Waterway (OWW) are advised of water based construction activity on the Herbert Hoover Dike adjacent to Route 2 of the OWW (Location 81 0' 34" W, 26 48' 56" N). Work is scheduled to be completed 30 October 2014. A No Wake Zone has been established extending 1000 feet either side of the projects to ensure safe management of bi-directional traffic throughout the construction period. Mariners are advised they transit at their own risk. Transiting vessels are restricted to a beam width of 20 feet. Reports of vessel grounding have been received. Mariners should be aware of and diligently follow the instructions of signage located along the shoreline. Mariners should be prepared to stop their vessel or proceed with caution as directed by flagmen. All vessels will be monitoring VHF channels 13 and 16. All vessels are to comply with the Inland Navigational Rules Act of 1980 (33 U.S.C. 2001-2038).

**Project Lighting and Signals:** All attending barges, vessels, and other miscellaneous floating plant in attendance will display lights and signals under the Inland Navigational Rules Act of 1980 (33 U.S.C. 2001-2038). When these vessels are fixed or moored to the bottom they are treated as structures (33 C.F.R. Subpart 67.15.4). Arrangement of lights on cofferdams and fixed barges or vessels shall follow the guidelines as outlined by 33 C.F.R. Subpart 67.05-1, which prescribes an obstruction light to be a quick-flash (~60 flashes per second) white light with a 360° lens and a rated range of at least ½ mile on each corner of the structure (cofferdam) and fixed vessels (unless moored behind the cofferdam). All lights will be on a fixed plane and flash in unison. The operating period for lights is between sunset and sunrise.

See the attached drawing for site locations. Additional information concerning Lake Okeechobee, the Okeechobee Waterway and related navigation bulletins including controlling depths may be obtained on Jacksonville District's website at:

<http://www.saj.usace.army.mil/Divisions/Operations/Branches/Navigation/NavNotices.htm>

U.S. Army Corps of Engineers Point of Contact is Mr. Al Morris (Ops Manager) (904) 232-2258.
